

Redstor 2009 Technical Training & Update Forums

Focusing on developments in data management & protection. Training on technologies that assist with Data Loss Prevention, personal mobile data protection and control and visibility of remote school devices.

The 2009 technical training & update forum is purposely planned to teach and update you about the solutions which are designed to address the common challenges Local Authorities face based on our experience and feedback we have from our 60+ Local Authority customers.

The session will help you to learn:

- **Encryption**-Redstor Protector-The ultimate protection for your mobile devices afforded through encryption, backup, anti-virus and shredding all in one combination.
- **Device Management**-Centrastage-Learn how to get visibility and control of school devices from anywhere over the internet .
- **Backup**-Learn how to protect administration and curriculum data cost effectively and securely with RBUSS

Dates

- Tuesday 28th April - Wellcome Trust, London
- Thursday 30th April - Manchester United FC, Old Trafford, Manchester
(Includes a tour of either Old Trafford or the Wellcome Trust Galleries)
